HTML Code

```
<div class="column black center-content">  
  <img class="image2" id="img2" />  
</div>
```

```
<div class="column black center-conte  
  <img class="image1" id="img1" />  
</div>
```

CSS Code

```
.image1 {  
  content: url("images/logo.jpg");  
}  
  
.image2 {  
  content: url("images/face.jpg");  
}  
  
.image1-2 {  
  content: url("images/gt31-1.png");  
}  
  
.image2-1 {  
  content: url("images/ring.jpg");  
}
```

```
@media only screen and (max-width: 850px) {  
  body {  
    height: 100vh;  
    width: 100vw;  
    display: block;  
  }  
  
  .column {  
    height: 20%;  
    width: 100%;  
  }  
  
  .mid-column {  
    height: 60%;  
    width: 100%;  
  }  
  
  .image1 {  
    content: url("images/logocrop.png");  
  }  
  
  .image2 {  
    content: url("images/maxface.png");  
  }  
  
  .image1-2 {  
    content: url("images/gt3-1uncrop.jpg");  
  }  
  
  .image2-1 {  
    content: url("images/ring.jpg");  
  }  
}
```

JavaScript Code

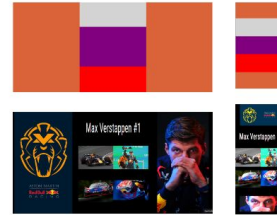

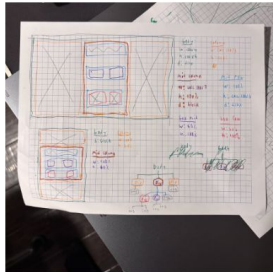

```
function gt31() {  
    document.getElementById("img1").classList.remove("image1");  
    document.getElementById("img1").classList.add("image1-2");  
    document.getElementById("img2").classList.remove("image2");  
    document.getElementById("img2").classList.add("image2-1");  
    document.getElementById("mvsound").play();  
    document.getElementById("engine").pause();  
}  
  
function playsound() {  
    document.getElementById("engine").play();  
    document.getElementById("mvsound").pause();  
}
```

Digital Portfolio

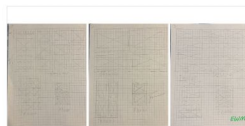

Plan & Incrementally Build

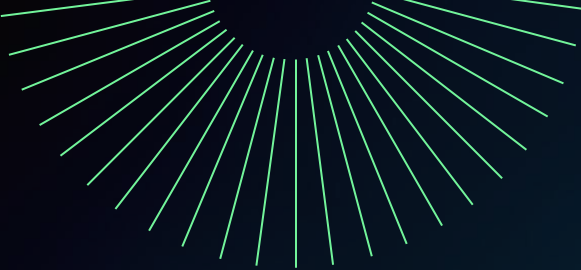

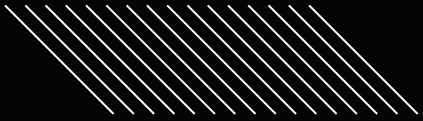

Before coding I sat down and carefully planned out my site considering the structure of the page and the relative measurements + display properties. After I had my plan I built-up my layout step-by-step.

Responsive Design & Digital Mockup

After making multiple sketches considering possible layouts I consulted with my teacher and we chose a design. Before coding I wanted to make sure everything looked professional so I used Google Slides to make a mockup.

Thank You
